Integral Dermo Peel

A facial treatment inspired by the medical profession consisting of two techniques used by dermatologists for many years. Mechanical and chemical micro-dermabrasion are combined in one treatment for an intense and targeted exfoliation of epidermal skin cells resulting in an even, radiant complexion. The appearance of fine lines and wrinkles is reduced, elasticity restored and the skin is bathed in an optimal hydrating environment following a specialised mask therapy to complete the treatment.

\$127

Wrinkle Control Fundamental Treatment
